MOUNTING GUIDE FOR LOW STOOL WITH GAS LIFT.

Model BK700001

The images do not identify the parts, but how to mount them.

Place the wheels in 5-spoke base.

Place the gas lift cartridge in the housing plate.

Place the 5-star base on the gas cartridge.
At this time gently tap on the base as these parts are subjected to pressure.

Turning the chair hold the base. Until you sit in the chair a few times, the seat can be separated from the base and is secured only by pressure.
